

Camarattery's Grain Recipe:

3 parts flaked barley (do not use pearled barely! It's too hard and will break teeth!)

1 part sun flower seeds

1/2 part oat groats (Steel cut oats).

1/4 part Calf Mana (from the feed store)

Or as an alternative to the Calf Mana: A bird pellet non fruit flavor for medium birds. IE.. [Zupreem](#), [Harrison's](#), [Kay Tee Exact](#), [Roudybush](#). Or the bird pellet from Excello.

1/4 part raw peanuts (either in the shell or out of the shell)

1/4 part senior dog food of high quality. Only natural ingredients please! IE... Innova, Taste of the Wild, Chicken Soup For Dogs, Wellness, Pinnacle etc. Do not use garbage dog foods as these will give your rat tumors. IE... Old Roy, Science Diet, Iams, Alpo or anything from a grocery store or super store. Those are all really bad!- adding dog food to a grain diet will make adult rats obese!

Optional: A pinch of raw pumpkin seeds daily. Around 4 seeds per rat. This is a good treat food.

Lakewood:

Curve Feed and Supply
6750 West Mississippi Avenue
Lakewood, Colorado 80226
(303) 934-1249

Denver:

Excello Commodities – Note Excello has everything except the flaked barley.
3725 E 48th Ave
Denver, Colorado
(303) 322-1878

Most feed stores carry all of this. So most likely there's a place close to your home.
